

## ELECTRIC SUPPLY AND EQUIPMENT IS GOING GREEN

To our customers.

In an effort to reduce paper consumption, Electric Supply & Equipment has decided to join many of you in the **Go Green** effort. We want to do our part in protecting our environment and reducing waste so we have decided to offer an environmentally friendly alternative to receiving invoices, statements and correspondence.

If you would like to receive invoices, statements and any correspondence via email we will need a contact person and email address. If there are multiple contacts please provide the information for each.

In the space below please list contact name, phone number and email address. Feel free to contact Elaine Schall at 336.574.4814 or Pam Cauthen at 336.574.4824 with any questions.

Please return this information to Pam and Elaine via email or with your next payment. ar@ese-co.com

Thank you for joining our efforts to **Go Green**.

| Contact | Phone Number | Email Address | Invoices | Statements |
|---------|--------------|---------------|----------|------------|
|         |              |               |          |            |
|         |              |               |          |            |
|         |              |               |          |            |
|         |              |               |          |            |
|         |              |               |          |            |
|         |              |               |          |            |
|         |              |               |          |            |
|         |              |               |          |            |
|         |              |               |          |            |
