

POWERSCAN™ 9600 DPX

Pioneering Industrial Handheld Scanner for Direct Part Marking Traceability

ULTRA-RUGGED WITH NEW BALANCED ERGONOMICS!

The PowerScan family of bar code readers is the ultimate industrial handheld scanner designed and constructed to withstand the toughest environmental conditions. The PowerScan 9600 imagers have an ultrarugged design, an ergonomic shape with well-balanced weight to reduce operator stress during daily activities.

DPM TECHNOLOGY

The PowerScan 9600 DPX series addresses Direct Part Marking (DPM) applications where codes are directly marked on the items for traceability with different marking technologies such as laser etching, dot peening, inkjet printing and electrochemical etching. The Datalogic patented 4D learning system automatically sets up the best acquisition parameters and decoding algorithms, without the need to configure the scanner for every different application.

WIRELESS CHARGING

The PowerScan 9600 DPX scanner features Datalogic's Wireless Charging system. Based on inductive-charging technology, Datalogic's Wireless Charging System eliminates battery contacts and pins that often get dirty, bent, or broken over time – and this removes a key point of failure for devices used in industrial and retail functions.

MOBILITY ENHANCES PRODUCTIVITY

The PowerScan 9600 DPX cordless model further enhances the operator efficiency and safety with Bluetooth 5.0 or Datalogic's STAR Cordless System™. The base/charger has a modular design and is available with multiple interface plug-ins for standard and industrial communication, such as RS-232, USB, Standard Ethernet, and Industrial protocols.
