

ES&E

AUTOMATION TRAINING

Interactive, hands-on, lab-style training led by ES&E Automation Specialists

Topics include Electrical Basics, Network Basics, Mechatronics, PLCs, Drives, Software, and more!

Ideal for small groups of 1-5 students

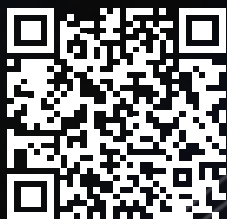

Priced per class, not per individual

½ day to 1-1/2 day class length depending on the subject and level of training

Classes held at your local ES&E location OR at your facility for an additional fee

Multiple classes may be scheduled “back-to-back” at a reduced price

Scan the QR Code to get started!

Class #	Training Class
ST-ELE-01	Electrical Basics
ST-S&I-01	Hardwired Safety and IC
ST-SEN-01	Sensor Application and Setup Basics
ST-SEN-02	Sensors and IO-Link
ST-NET-01	Ethernet Networking Basics
ST-PLC-01	RSLogix500
ST-PLC-02	CCW & Micro800
ST-PLC-03	Studio 5000 Logix Designer
ST-PLC-04	Studio Logix 5000 with Safety
ST-HMI-01	Machine Edition
ST-HMI-02	CCW & PV800
ST-HMI-03	Studio 5000 View Designer
ST-HMI-04	Optix
ST-MOT-01	Integrated Motion Basics
ST-MOT-02	Advanced Integrated Motion
ST-MOT-03	Cam, Gear, & Coord Motion
ST-MOT-04	Mechatronics Design
ST-VFD-01	Induction Motor Basics
ST-VFD-02	VFD Basics
ST-VFD-03	PowerFlex 520 AC Drives
ST-VFD-04	PowerFlex 755 AC Drives
