e-SSEMBLY

REDUCE YOUR PROJECT BUILD TIME BY 75%

Electrical panels are crucial to automation and manufacturing yet building them is typically slow and labor-intensive. Imagine reducing your build time by up to 75% with all wire cutting, stripping, crimping, and terminating done for you. With e-SSEMBLY, you receive all hardware, wire, and instructions bundled in a kit, ensuring you have the correct parts in the order needed.

e-SSEMBLY benefits include

- Faster project completion
- Reduced labor & training needs
- Enhanced capacity & bandwidth
- Improved efficiency, quality & consistency

From automated wire bundling to smart kits and panel modifications, we offer services to save time and labor. Partner with e-SSEMBLY for your next project and experience the future of panel building. Scan the QR code or click here to learn more.

Services Include

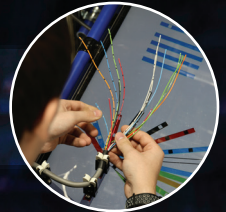

Ready To Assemble

Wire Bundles

Multi-Conductor Cables

Enclosure Cutout & Modification

Smart Kits

Subassembly

Laser Engraving

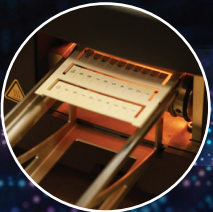

Pre-Cut DIN Rail & Wire Duct

Pre-Printed Labels

Terminal Markers

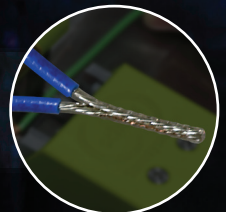

Wire Harnesses

Custom Cables

Ultrasonic Welding

Wire & Cable Paralleling
